Profile

I am passionate to be a UI/UX designer. I possess a strong foundation in front-end skills, coupled with a keen eye for designing enabling me to create visually appealing and user-friendly designs.

Projects

Venugram : Designed and developed web pages with HTML, CSS, JS, Bootstrap4 as per requirements of client. [Demo](#)

Coffee hut : Designed for selling coffee machine using Figma (wireframe and prototype). [Demo](#)

Concert ticket booking : This is my university project in retrieval of data(DBMS). It's an online ticket reservation system for concerts.

TRS : Tourism Recommendation System utilizes machine learning algorithms to provide personalized travel recommendations.

Internship

Front-end web development at Hamdan Infocom, October 2022.

Courses

Practical approach for Designing Web
AICSES Cyber Security Solution Pvt
Ltd July 2022.
